IT Una realtà del made in Italy si può raccontare in tanti modi diversi, attraverso i volti e le mani delle persone che la compongono o con i suoi progetti più significativi. In questo compendio dell'universo LaCividina abbiamo affidato il nostro racconto a immagini che parlano di saper fare e concretezza, di design e bellezza, di eclettismo e internazionalità. In breve, di un'azienda solida capace di creare progetti unici, imbottiti che sono la perfetta sintesi di pensiero, capacità artigianale e visione imprenditoriale globale.

EN A creative Italian manufacturing company can tell its story in many different ways. It may choose to show the hands and faces of the people behind it, or it might prefer to present its most significant projects. In this overview of the LaCividina world, our story is told by images depicting know-how, substance, exceptional designs, aesthetic appeal, versatility and an international outlook. Essentially, it is a tale of a solid company that is capable of creating unique designs, concepts that are perfectly encapsulated by upholstered furniture, craftsmanship and a global business vision.

FR Une firme du made in Italy peut être racontée de différentes façons, à travers les visages et les mains des personnes qui la composent ou par le biais de ses projets les plus parlants. Dans ce recueil de l'univers LaCividina, nous avons choisi de confier notre récit aux images qui parlent de savoir-faire et de pragmatisme, de design et de beauté, d'éclectisme et d'internationalité. Bref, d'une entreprise solide, capable de créer des projets uniques, des assises rembourrées qui sont une synthèse parfaite de pensée, habileté artisanale et vision entrepreneuriale globale.

DE Die Realität des Made-in-Italy kann auf unterschiedliche Arten dargestellt werden – anhand der Gesichter und Hände von Personen, die sie erschaffen, oder mithilfe von aussagekräftigen Projekten.
